“ Carl you always made me fill like you knew me forever, that is why it was so easy to talk to you. I am drawn to people like you who are who they are and not fake. We had a lot of good laughs and some not to mention jokes but all in all you had a heart of gold. I always noticed how you took to children and especially to Kyera that shows me that you were a good man behind that tough exterior. RIP my friend you will be forever in my heart until we meet again on that other side called Heaven. My Condolences to the Stevens family may God bring you comfort at this time.
