“ Bob was a generous and caring person who loved the company of family. As my father's brother, Bob was part of our family from the time that I can remember. Bob took an interest in me and all my siblings from Sue, Carol, Sandra, me, Mary (Moir), and J.P. Later on he got to know Donna and Janie, my step-sisters (adopted by their late mother's family) who were not raised with us. Bob showered us with gifts but most importantly, his love and caring. When Bob and Louise found each other, he got a gift that was priceless, his own family. Bob was complete and a very happy man. It was so much fun to visit Bob , especially when Louise was alive. Now that you are Bob, coming to Chambersburg will not be the same, but you are with Louise. God bless you, Uncle Bob.

Uncle Bob was just 15 years old when my parents married, and he was always a part of my life. We kids would be so excited whenever he came to visit because he was the young, cool uncle. I'll always remember when he drove up in his red Studebaker Hawk, which Dad later bought from him and a definite upgrade from the ranch wagon! Bob meant the world to our family, and we were thrilled when he and Louise married! He was so very happy and it's wonderful they had so many great years together.

In later years, whenever we came to Chambersburg, we always saw Bob. We would go to dinner and laugh all evening and discuss family history. Our children felt so lucky to have him in their lives. How lucky we were to have another generation have his love and wisdom.

Visiting Chambersburg will not be the same without Uncle Bob. He will be missed so much.
